

Acknowledgments

I would like to thank my advisor Dr. Chia-Wei Li, who gave me the opportunity to join this lab and worked on the topic of biomineralization. Chiu-Wen Shyu who tutored me on the two-dimensional electrophoresis, the work couldn't be done so smoothly without him. Fang-Chun Sun for the directing the use of isotopes. Ping-Yen Chen for the use of page-gels. Hsin-Yi Shyu and Lee-Chen Lee who kept me accompany working late at night and the materials they supplied. The work was mostly done in Dr. Yiu-Kay Lai's lab. Yi-Chin Chen and Gene Huang for the accompany of each time we went collecting fresh material at the northeast shores of Shermen Shiang. Chin-Hua Shia for putting the headers and fixing cracked gels with photoshop so I had nice figures. Yu-Tin Su for the typing. Bi-Ju Lin who accompanied me through my graduate years. Most of all, Dr. Cyprian Weaver who brought me into the field of life science, and the editing of my thesis with patient. Last, I would like to thank my parents for the support they gave me through all these years.
