誌謝.....	i
摘要.....	ii
ABSTRACT.....	iii
1. INTRODUCTION.....	1
1.1 Vision.....	1
1.2 Direction selectivity in the visual system.....	2
1.3 Direction selective ganglion cells.....	3
1.4 Starburst amacrine cells.....	4
1.5 Neuronal circuitry and cellular mechanisms of direction selectivity.....	5
2. MATERIALS AND METHODS.....	9
2.1 Tissue Preparation.....	9
2.2 Visualization of the somata of DSGCs and SACs.....	10
2.3 Visual stimuli.....	11
2.4 Electrophysiology.....	11
2.5 Microinjection.....	13
2.6 Immunocytochemistry.....	14
2.7 Image acquisition.....	15
2.8 Data analysis.....	17

3. RESULTS	21
3.1 Intracellular recording of DSGCs	21
3.2 Morphology of direction selective ganglion cells	22
3.3 Morphology of starburst amacrine cells	23
3.4 Dendritic contact patterns between a DSGC and a SAC	24
3.5 Inhibitory synaptic patterns between a DSGC and a SAC	25
4. DISCUSSION	27
4.1 Co-fasciculation may not be adequate for the estimation of synaptic transmission	27
4.2 SACs provide similar inhibitory inputs to DSGCs in all directions	28
4.3 ON and OFF responses of direction selectivity may be mediated by different mechanisms	30
5. LITERATURE CITED	32
6. TABLES AND FIGURES	40
